

## GREEN CASTLE ESTATE

# Bird List

Birds seen on recent tours during November – April | In one week we can expect around 120 species.

E=Endemic | ES=Endemic Subspecies | I=Introduced

Some of the species below are very unusual however they have been included for completeness.

Jamaica has recorded over 300 species and the birds below are the most frequently encountered, however we cannot guarantee what we will or will not see, that's birding!
